USER INTERFACE DESIGN

EX No: 9 **240701463**

Design Input Forms with Validation using HTML, CSS, JavaScript and Validator.js

---

AIM:

The aim is to design input forms that validate data, such as email and phone number, and display error messages using HTML/CSS and JavaScript with Validator.js.

PROCEDURE:

Step 1: Creating the HTML Form

Create an HTML form with input fields for name, email, and phone number.
Include input elements and space for displaying error messages.

Step 2: Styling the Form using CSS

Apply CSS to design the form with proper alignment, spacing, and layout.
Use styling to make the form visually appealing and user-friendly.

Step 3: Adding JavaScript Validation

Use JavaScript along with Validator.js to validate user inputs.
Display appropriate error messages for invalid inputs and success message for valid inputs.

SOURCE CODE:

index.html

```html
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>Form Validation</title>

    <link rel="stylesheet" href="style.css">
    <script src="https://cdnjs.cloudflare.com/ajax/libs/validator/13.9.0/validator.min.js"></script>
</head>
<body>

    <div class="form-container">
        <form id="form">
            <h2>Form Validation</h2>

            <div class="field">
                <input type="text" id="name" placeholder="Full Name">
                <small class="error"></small>
            </div>

            <div class="field">
                <input type="text" id="email" placeholder="Email">
                <small class="error"></small>
            </div>

            <div class="field">
                <input type="text" id="phone" placeholder="Phone Number">
                <small class="error"></small>
            </div>

            <button type="submit">Submit</button>

            <p id="success"></p>
        </form>
    </div>

    <script src="script.js"></script>
</body>
</html>
```

style.css

```
# style.css > ...
* {
    margin: 0;
    padding: 0;
    box-sizing: border-box;
}

body {
    font-family: Arial, sans-serif;
    background: linear-gradient(to right, #e0e0e0, #f4f4f4);
    display: flex;
    justify-content: center;
    align-items: center;
    height: 100vh;
}

.form-container {
    background: #ffffff;
    padding: 35px 30px;
    width: 320px;
    border-radius: 12px;
    box-shadow: 0 8px 25px rgba(0, 0, 0, 0.15);
    text-align: center;
}

h2 {
    margin-bottom: 25px;
    font-size: 22px;
    font-weight: 600;
}

.field {
    width: 100%;
    margin-bottom: 18px;
    text-align: left;
}

input {
    width: 100%;
    padding: 12px;
    border: 1px solid #ccc;
    border-radius: 6px;
    font-size: 14px;
    transition: 0.3s;
}
```

```
# style.css > body
input:focus {
    border-color: #007bff;
    outline: none;
}

.error {
    display: block;
    margin-top: 5px;
    font-size: 12px;
    color: red;
    height: 14px;
}

button {
    width: 100%;
    padding: 12px;
    border: none;
    border-radius: 6px;
    background: #007bff;
    color: white;
    font-size: 15px;
    font-weight: 500;
    cursor: pointer;
    transition: 0.3s;
    margin-top: 5px;
}

button:hover {
    background: #0056b3;
}

#success {
    margin-top: 15px;
    font-size: 14px;
    color: green;
    text-align: center;
    min-height: 18px;
}
```

---

script.js

```
JS script.js > ...
document.getElementById("form").addEventListener("submit", function (e) {
    e.preventDefault();

    let name = document.getElementById("name").value.trim();
    let email = document.getElementById("email").value.trim();
    let phone = document.getElementById("phone").value.trim();

    let errors = document.querySelectorAll(".error");
    errors.forEach(err => err.innerText = "");

    let isValid = true;

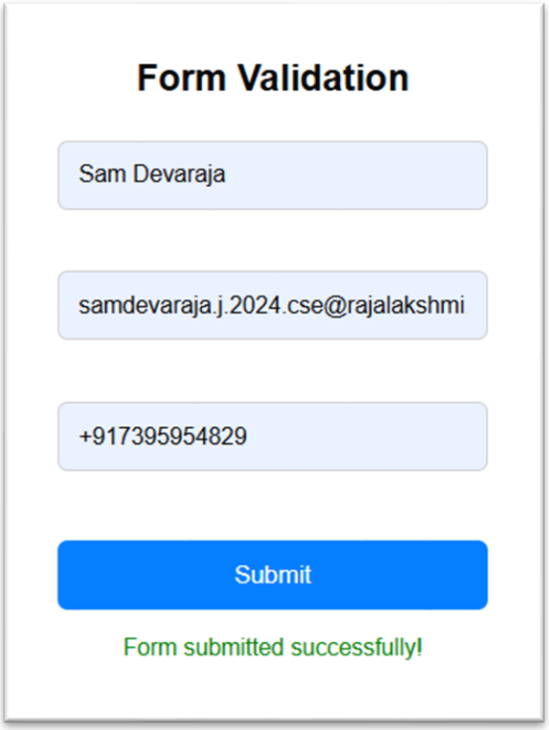
    if (name === "") {
        errors[0].innerText = "Name is required";
        isValid = false;
    }

    if (!validator.isEmail(email)) {
        errors[1].innerText = "Invalid email";
        isValid = false;
    }

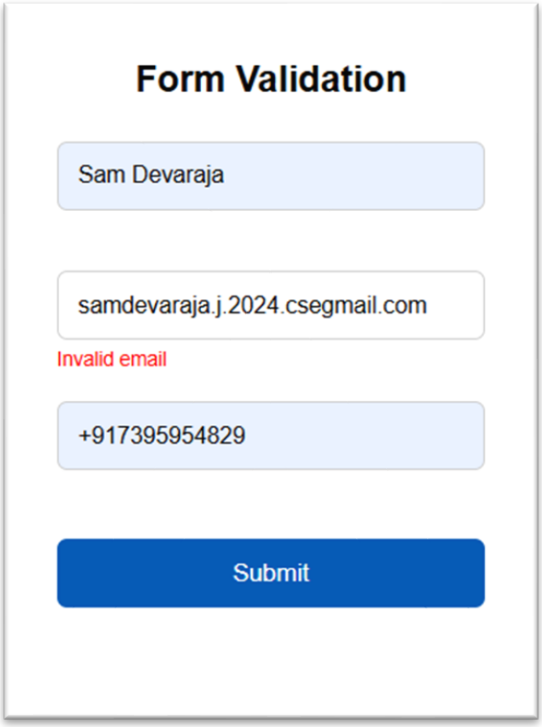
    if (!validator.isMobilePhone(phone, 'any')) {
        errors[2].innerText = "Invalid phone number";
        isValid = false;
    }

    if (isValid) {
        document.getElementById("success").innerText =
            "Form submitted successfully!";
    }
});
```

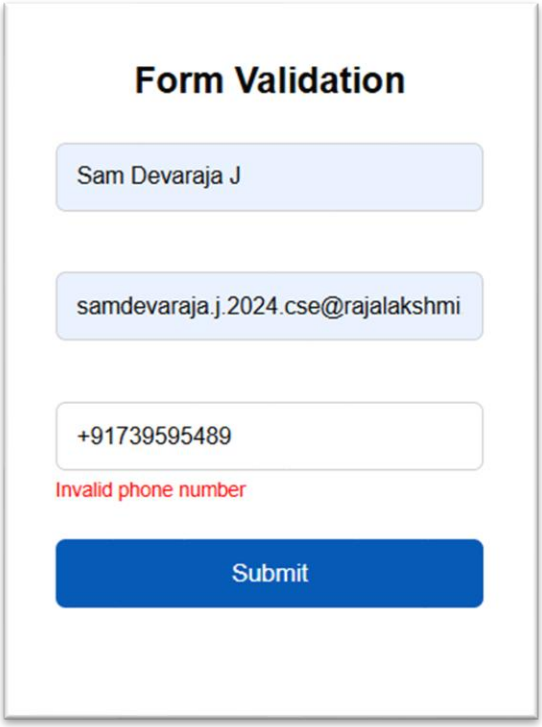
OUTPUT:



Form Validation
Sam Devaraja
samdevaraja.j.2024.cse@rajalakshmi
+917395954829
Submit
Form submitted successfully!



Form Validation
Sam Devaraja
samdevaraja.j.2024.csegmail.com
Invalid email
+917395954829
Submit



Form Validation
Sam Devaraja J
samdevaraja.j.2024.cse@rajalakshmi
+91739595489
Invalid phone number
Submit

RESULT:

The input form was successfully designed and validated using HTML, CSS, JavaScript, and Validator.js. The system correctly validates email and phone number inputs and displays appropriate error and success messages.
