USER INTERFACE DESIGN

EX No: 7 **240701463**

AIM:

The aim of this experiment is to design and evaluate different mobile app UI layouts and color schemes for a Game Hub application using GIMP, and to collect user feedback on aesthetics, usability, and visual appeal.

TOOLS USED:

- GIMP (GNU Image Manipulation Program)
- Google Forms
- Image Assets (Game UI elements, icons, thumbnails)

PROCEDURE:

Step 1: Install GIMP

- Download GIMP from the official website and install it on your system.
- Launch the application.

Step 2: Create a New Project

- Open GIMP.
- Create a new canvas:
  File → New → Set size to 1080 × 1920 pixels

Step 3: Design Base Layout

1. **Create Layout Structure:**
   - Header section (Game Hub title and welcome text)
   - Progress bar section (Level and XP)
   - Game cards section
   - Footer navigation bar
2. **Add UI Elements:**

    - Title: GAME HUB
    - Welcome message (Player name)
    - Level progress bar
    - Game cards:
        - Racing Pro
        - Battle Arena
        - Rogue Heist
    - Buttons: PLAY
    - Icons: Home, Leaderboard, Settings
3. **Organize Layers:**
    - Separate layers for each element:
        - Header
        - Progress bar
        - Game cards
        - Buttons
        - Footer

Step 4: Create Colour Variants

- Duplicate the layout three times.
- Apply different colour themes:
    - Layout 1 – Blue Theme
    - Layout 2 – Gold Theme
    - Layout 3 – Red Theme

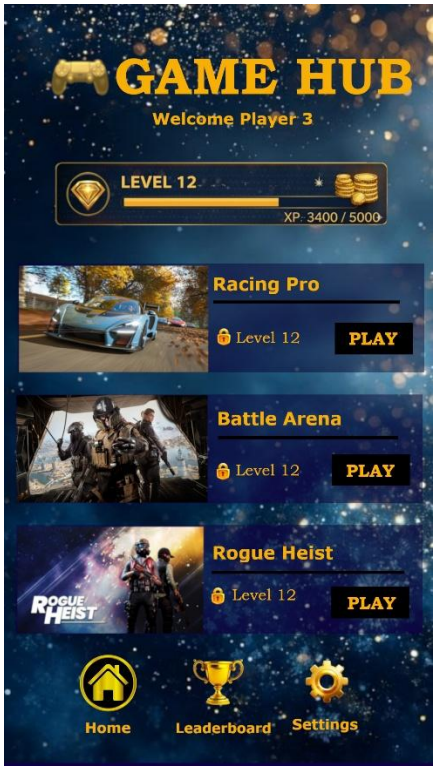

Figure 1: Game Hub – Blue Theme Layout

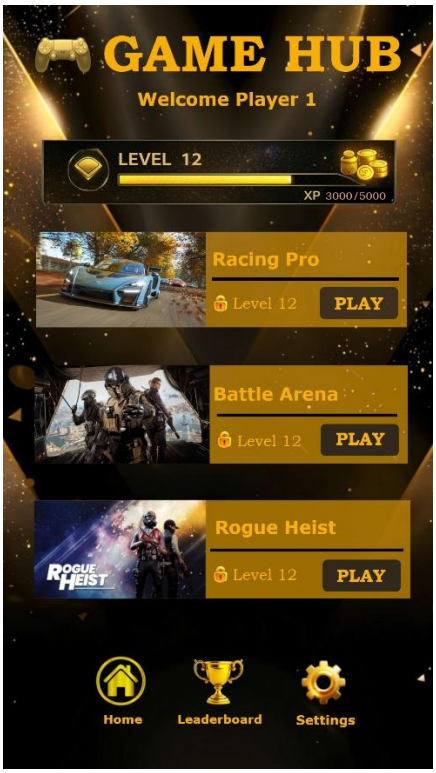

Figure 2: Game Hub – Gold Theme Layout

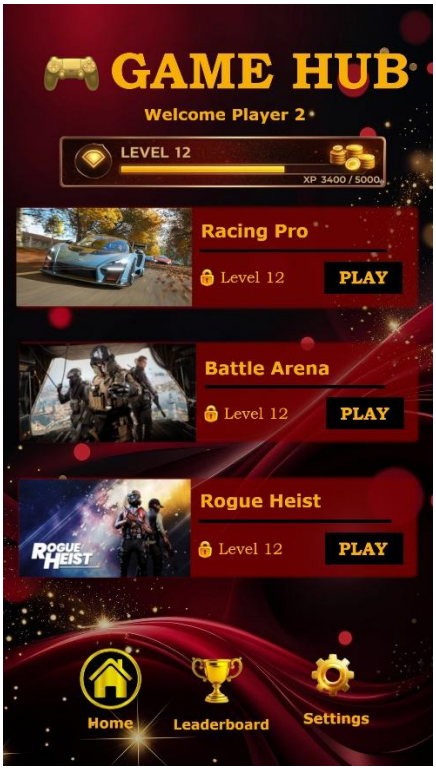

Figure 3: Game Hub – Red Theme Layout

Step 5: Collect User Feedback

- Shared all three layouts with users.
- Created a feedback form.

Evaluation Criteria:

- Visual appeal
- Usability
- Readability
- Colour preference

USER FEEDBACK:

Layout 1 – Blue Theme

- Clean and simple design
- Good readability
- Comfortable for long usage

- Needs slightly better button contrast

Layout 2 – Gold Theme

- Premium and attractive look
- Strong visual hierarchy
- Slightly heavy and bright
- Needs spacing improvements

Layout 3 – Red Theme

- Very engaging and energetic
- Strong gaming feel
- Too intense for long usage
- May cause eye strain

FINAL RECOMMENDATION:

Preferred Layout: Layout 1 (Blue Theme)

Reason:

- Balanced design
- Better usability
- Good readability
- Less eye strain

STEP 6: ITERATION AND REFINEMENT

- Improved button visibility
- Adjusted spacing between elements
- Enhanced progress bar clarity
- Balanced colour intensity

Final testing ensured improved usability and aesthetic quality.

RESULT:

Three different UI layouts were successfully designed and evaluated.
User feedback helped identify the most effective design in terms of usability and visual appeal.
